

8/16/2017

Hi Families,

Sorry for the confusion. The orientation scheduled for [Aug. 28th](#) is not the first day of school. At this point the start date of the program is up to licensing, meaning the first day of school will not be [on Aug. 23rd](#). Once the Department of Social Services has set up and completed their inspection of the facility and program we will be up and running. I will keep all parents updated once we hear from the licensing department. As with all new endeavors, things have to go through a certain process. I apologize for any inconvenience this has caused and appreciate your patience. The school is looking into strategies and resources available in the meantime.

Let me know if you have any further questions.

Cheers,
Victoria Maier
Director/Lead Teacher
